## ASSUMPTION

Officials of the **Department of Elementary and Secondary** would request a Supervisor (\$47,616) and related expense and equipment to administer Operation Recognition. Officials could not estimate the number of diplomas to be issued but expect costs to develop application procedures, distribute applications, publicize the program and issue diplomas would exceed \$100,000.

Officials of the **Department of Public Safety - Veterans' Commission** anticipate the need for about \$8,000 in expenses of one dollar per inquiry to determine eligibility for diplomas. They noted that over 500,000 Missourians served during World War I, World War II and the Korean Conflict.

Officials of the **Department of Public Safety - Missouri National Guard (MNG)** noted that over 500,000 Missourians served during World War I, World War II and the Korean Conflict and that there are about 124,500 veterans of World War II living in Missouri. They anticipate that some veterans or families of deceased veterans would not have proof of military service and would therefore need verification from the Office of the Adjutant General, which, under sections 41.170 and 41.180, RSMo, is required to maintain war records for Missouri citizens' entry service. They also assumed that the honorary diplomas could only be issued to Missouri residents or deceased Missourians who attended Missouri high schools.

MNG officials anticipate needing two Clerks II for one year (September 2001 to September 2002) who would research war records, verify honorable service and certify veteran status.

Oversight assumes the Adjutant General will verify military service, when verification is required. Oversight has also adjusted fringe benefits to account for the temporary status of the employees.

Oversight also assumes that the veterans' organizations would publicize the program and that almost all applications would be processed during the first twelve months the program would be in effect. Therefore, Oversight assumes that the State Board of Education and Department of Elementary and Secondary Education could absorb costs for the program.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposal would require the Department of Elementary and Secondary Education, with the cooperation of the Missouri Veterans' Commission, to develop Operation Recognition, a program to award honorary high school diplomas to Missouri World War I, World War II and Korean War veterans who did not complete their high school education after the war. Honorary diplomas could be awarded posthumously.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space. The proposal would not affect Total State Revenue.
